International Carotenoid Society honors Advisory Board Members with Fellowship Awards

San Diego, California – May 3, 2017 – Professors Richard Bone and John Landrum, members of the Guardion Health Sciences, Inc. (“Guardion” or the “Company”) Science Advisory Board, have been elected Fellows of the International Carotenoid Society. This prestigious award reflects the key contributions these two scientists have provided to the field of carotenoid research.

Michael Favish, founder and CEO of Guardion, said “Over their long and very successful careers, Richard Bone and John Landrum have provided an immense service to the field of carotenoid research, and The Company is proud to have both these distinguished scientists as members of our Advisory Board. We value their contributions to our work extremely highly, and we are delighted that the International Carotenoid Society has chosen to bestow this honor upon them.”

About Guardion Health Sciences, Inc.

Guardion Health Sciences, Inc. is a specialty health sciences company that develops, formulates and distributes condition-specific medical foods with an initial medical food product that addresses a depleted macular protective pigment, a known risk factor for age-related macular degeneration (“AMD”), and a significant component of functional vision performance. Guardion Health Sciences, Inc. has also developed a proprietary medical device, the MapcatSF[®], which accurately measures the macular pigment density, therefore providing the only two-pronged evidence based protocol.

Forward-Looking Statement Disclaimer

With the exception of the historical information contained in this news release, the matters described herein contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements involve unknown risks and uncertainties that may individually or materially impact the matters discussed herein for a variety of reasons that are outside the control of the Company, including, but not limited to, the Company's ability to raise sufficient financing to implement its business plan and its ability to successfully develop and commercialize its proprietary products and technologies. Readers are cautioned not to place undue reliance on these forward-looking statements, as actual results could differ materially from those described in the forward-looking statements contained herein. Readers are urged to read the risk factors set forth in the Company's recently effective Registration Statement on Form S-1, as well as the financial statements included therein. The Registration Statement on Form S-1 is available at the SEC's website (www.sec.gov). The Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
